- ➔ Cartes à pincettes de 5 à 10 sur le thème des animaux d'Afrique avec écritures chiffrées, constellations du dé et des doigts.
- ➔ Vous pouvez coller une gommette derrière la bonne réponse : une fois que l'élève a placé la pince à linge, il retourne la carte et regarde si la gommette et la pince à linge sont placées au même endroit. Attention, si le papier utilisé pour l'impression est assez fin, la gommette peut se voir par transparence et les élèves le remarquent vite.
- ➔ Document disponible sur la boutique de Maitresse Jéro : <https://maitresse-jero.com> .
